SALCI
SELF ANALYSIS FOR LEARNING & COMPETENCY IMPROVEMENT

OLYMPIAD PROGRAM · 2026

THE SALCI OLYMPIAD

An Olympiad that gives every student a *report*, *not just a rank.*

A secure, **Paperless Online Olympiad** that turns every student's performance into clear, actionable insights for your teachers and parents to value.

Trusted by SALCI schools • **Powered by Deep Analytics**

01 Aligned with NEP 2020 and CBSE SAFAL

The **SALCI Olympiad** is built in sync with the National Education Policy (NEP 2020) and CBSE's SAFAL, the competency-first direction Indian schools are moving towards. We work the same way: concept and application over memorisation, delivered securely on screen, with a real report for every child rather than just a rank, for every class from Class 1 upward.

Lift your students' performance

Competency practice through the Olympiad raises every student's performance, which in turn lifts your school's SAFAL results.

Your School: Ready for all digital assessments like SAFAL

The Olympiad puts your computer lab, network and team through their paces, so your whole school is ready for digital tests like SAFAL.

Future-ready for national exams

On screen, timed and competency-based, the Olympiad makes students future-ready for national-level tests and performance-ready, in sync with CBSE's vision.

Competency, not cramming

The SALCI Olympiad rewards applying concepts, not memorising them, and moves away from ROTE practices.

A self-analysis report, not only a rank

This Olympiad provides strengths, gaps and proficiency analysis for every child, to move away from rank pressure.

Open to every class

The Olympiad is available to all students from Class 1 onwards, and students keep receiving competency-based practice appropriate to their grade level.

NEP 2020 aligned | Open to Class 1 onwards | Three core subjects | Competency-based | Performance Gap Focused

02 Why and how Online Olympiad beats the Offline format

SALCI
SELF ANALYSIS FOR LEARNING & COMPETENCY IMPROVEMENT

✓ ONLINE · THE SALCI WAY

Instant, deep results
Every child gets a full analysis report for deeper insight on performance, giving a clear picture of what is going well and what needs attention.

Per-question speed & accuracy
The online format measures the exact time and accuracy for every question, which the offline format simply cannot.

Future-Ready for Real Exams
Most major competitive exams are now computer-based, so students practise the format their future demands.

Far richer analytics
The online mode will always produce a deeper and more accurate report, which the offline format cannot.

Zero logistics
No printing, packing, couriering or collecting answer sheets, ever.

Fair & tamper-proof
PIN-gated and auto-graded, with no marking errors or bias.

TRADITIONAL OFFLINE WAY

Weeks of waiting
A single rank arrives by post, with no insight into how the child actually did.

No question-level data
Just a final mark, with no per-question timing or accuracy to learn from.

An outdated format
Real competitive exams have moved online, leaving paper-trained students behind.

Heavy logistics
This process involves heavy printing, invigilator handling and physical paper handling.

Error-prone
The traditional offline way is a rigorous manual format which can result in transcription slips, lost answer sheets and indeed massive manual errors in evaluation.

Wasteful
Reams of paper and courier costs, and zero analytics at the end.

03 From Sign-up to Celebration, in Five Steps

1. **Onboard your School**
We set up your school and create teacher logins. Nothing to install and no upfront cost, so you're ready in minutes.

2. **Enroll Students**
Enroll straight from your existing SALCI roster, or add new students at your convenience. Fees are paid online with instant receipts, no cash handling, and no manual work required.

3. **Schedule Exam Batches**
Build batches that fit your computer-lab capacity. The system prevents clashes and seats students automatically.

4. **Students Compete Online**
A fair, PIN-gated Olympiad delivered entirely online. Fully paperless and tamper-resistant.

5. **Results, Reports & Certificates**
We publish a professional analysis report and certificate for every student, plus a whole-school dashboard segregated class-wise, student-wise and subject-wise, for deeper insight on the academic progress of the school.

04 Why Schools Choose it

A full Analysis Report per Student

The online way helps achieve concept mastery, with an analysis report focused on strengths and gaps as per national benchmarks.

Least Manpower Required

The online format handles most of it online, with the least teacher involvement in fees collection, invigilation, exam planning, sheet collection and evaluation. A real time-saver.

Whole-School Performance Dashboard

See class-versus-subject strengths across your entire school at a glance.

Secure, Fair & Paperless

PIN-gated, Secure online exam. Zero question-paper printing or logistics.

05 What you Need to Run it

ALL YOU REALLY NEED

Just one Computer lab.

We batch your students in a way that a single computer lab with 20 to 30 PCs is enough to conduct the Olympiad for your entire school.

1 Computer lab | A Web browser | Stable internet

No Paper, ever

No printing, packing or collecting answer sheets.

No new Hardware

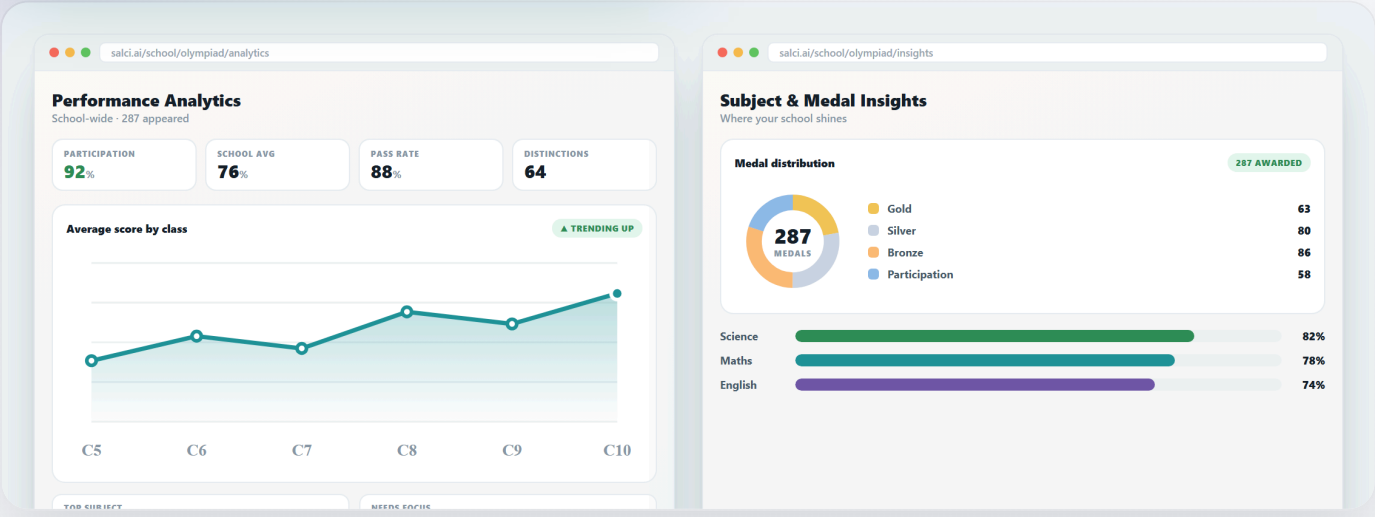

Your existing lab PCs and a browser. Nothing to install.

No Extra staff

Auto-graded and ranked, with minimal manual invigilation.

We Schedule it for you

We design capacity-aware batches to conduct the SALCI Olympiad flawlessly.

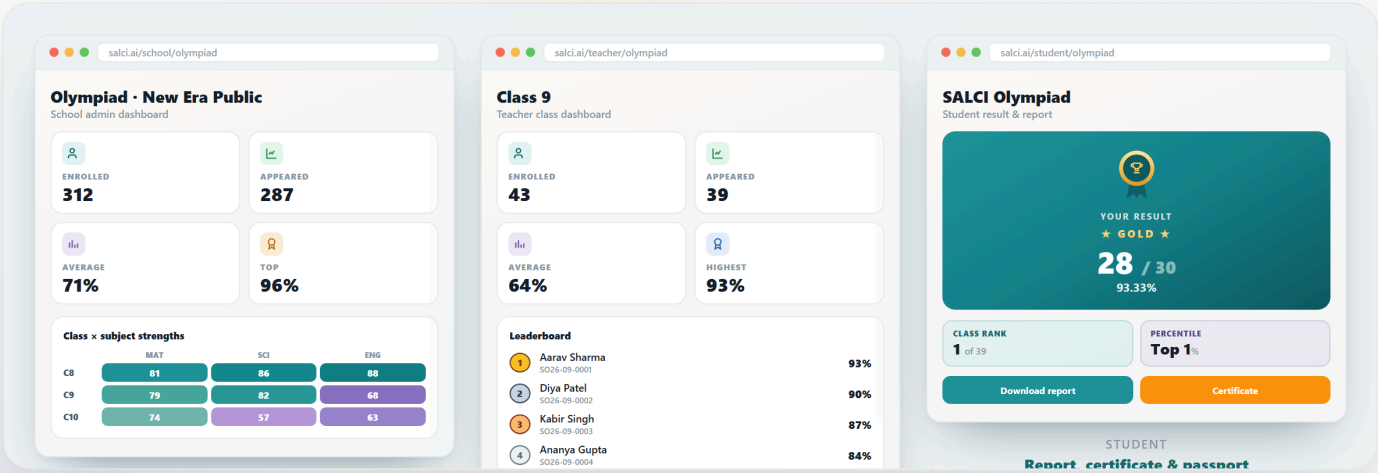

Live admin analytics: performance trends, subject strengths and the medal mix across your whole school.

06 So, Who runs all of this?

SALCI
SELF ANALYSIS FOR LEARNING & COMPETENCY IMPROVEMENT

We run the whole thing for you, with **Zero Burden** on your teachers.

From setup to results, SALCI implements and operates the entire exam environment: secure access, exam delivery, auto-grading, results publishing and support. Your team just shows up; we handle the rest.

Real dashboards for admins, teachers and students, all in one connected portal.

Secure & Fair
PIN-gated entry and tamper-resistant attempts, with exam integrity built in.

Fully Automated
Auto-graded, ranked and published, so reports and certificates generate themselves.

We're with you Throughout
Setup, scheduling, on-the-day support and results, all handled end-to-end by SALCI.

07 One Simple Price, Everything Included

PER STUDENT

₹249

for all 3 subjects

No hidden costs

** Inclusive of all taxes

Every ₹249 includes:

- **The online Olympiad** — Secure & auto-graded
- **Verified certificate** — Branded & shareable
- **Printable study material** — Full-syllabus prep, per student
- **Full analytics report** — Strengths, gaps & benchmarks
- **Financial benefit for schools** — Benefit to the schools in the form of discounts or cashback
- **School dashboard** — Whole-school analytics

SALCI
SELF ANALYSIS FOR LEARNING & COMPETENCY IMPROVEMENT

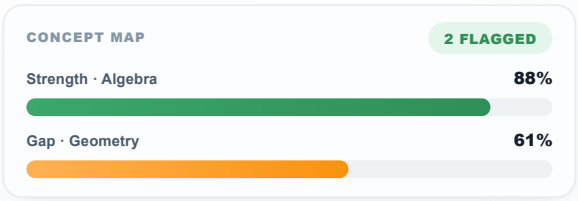

Comprehensive Performance Analysis

Know exactly how your child performed across subjects, concepts and questions.

Strengths & Improvement Areas

Discover strong concepts and identify the learning gaps that need attention.

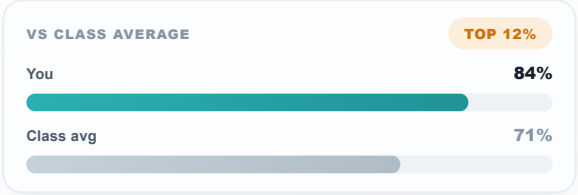

Speed & Time Intelligence

Understand your child's speed, accuracy and exam-time management.

Benchmarking & Growth Insights

Compare performance against class averages, with personalised improvement recommendations.

Score, Recognition & Rewards

Receive your score, rank and certificate, plus the chance to earn medals for outstanding performance.

Prepare Better. Perform Better. Get Rewarded

Every student receives complete Olympiad study material to prepare with confidence. With full support from SALCI, schools can conduct the Olympiad at their convenience while students gain valuable practice and competency exposure. Every participant receives recognition, and top performers are rewarded for their achievement.

Competency-first and analysis-led, in Sync with CBSE's SAFAL (Structured Assessment for Analysing Learning) assessment direction.

BRING IT TO YOUR SCHOOL

Give every student insight they can actually act on.
